### **EXAMINER'S AMENDMENT**

1. An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Bruce Itchkawitz (Reg. # 47,677) on 8/26/2005.

2. The application has been amended as follows:

### **IN THE CLAIMS**

Claim 93, Line 5, Replace "single data independent data communication protocol" with "single data independent communication protocol".

Claim 94, Line 5, Replace "single data independent data communication protocol" with "single data independent communication protocol".

Claim 95, Line 5, Replace "single data independent data communication protocol" with "single data independent communication protocol".

Claim 96, Line 5, Replace "single data independent data communication protocol" with "single data independent communication protocol".

Art Unit: 2143

Claim 97, Line 11, Replace "single data independent data communication protocol" with "single data independent communication protocol".

***Reasons For Allowance***

The following is an examiner's statement of reasons for allowance: The claimed invention is allowable in view of the prosecution history of patent number 6,212,566, the patent being the parent of the instant application. The claimed invention provides novel use for defining and implementing a digital system by partitioning the system into processes and defining a single data independent data protocol for each process for communication, the communication channels being implemented as interrupt driven I/O, the processes being implemented in C, Silage, or VHDL. Supporting portions of the specification can be found at Page 14, Lines 10-20, Page 66, Lines 5-20, enacting this functionality by specifying device system functions and verifying them, partitioning the functions into interconnect activity information, defining a single data independent data communication protocol for communication, and configuring interfaces in the form of communication input ports and communication output ports which was not taught or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2143
